

ANGLE BROOM

for Skid-Steer Loaders

- ◆ **Hydraulically driven rotating Broom pushes dirt and debris away from loader.**
- ◆ **Designed for Heavy Duty Sweeping of dirt, dried mud, light snow, and other debris.**
- ◆ **Ideal for driveways, sidewalks, parking lots, loading dock, warehouses and more.**
- ◆ **Excellent for quick light snow removal without damage to the pavement surface.**

Features

- One piece fast change Broom - No loss time installing multiple bristle wafers.
- Bi-Directional, manually angles up to 30 degrees left or right of center.
- Built-in Stand keeps Bristles off ground when stored and aids in changing Brooms.
- Hoses kept together and protected from abrasion in Nylon Sleeve.
- Flush Faced Hydraulic Quick Couplers included.
- Direct Drive Motor - No chains or sprockets.
- Loader Arms raise and lower broom.
- Universal Skid-Steer Mounting Plate fits all modern full size Skid-Steers.

Specifications	MODEL 190M-72	MODEL 190M-84
Broom size	26" dia. x 72" long	26" dia. x 84" long
Broom Type	Poly Bristle With Integral Steel Core	
Optional Broom	50% Poly & 50% Steel Bristles	
Overall Length	87"	99"
Overall Height	30"	30"
Sweeping Width In Angle Position	63"	73"
Weight	750 lbs.	850 lbs.
Hydraulic Drive	Reversible Parker Motor	
Hydraulic Flow Range	12 to 28 gpm	
Maximum Hydraulic Pressure	3000 PSI	
Minimum Hydraulic Requirements	12 gpm @ 2000 psi
