Add the convenience of a forklift to your loader

**Take Forks ON & OFF** without leaving the operator’s seat.
- Roll bucket forward
- Engage free-standing forks with brackets
- Roll bucket back to level forks

**Don’t buy a light-duty set of forks and bend them in the first month of use.**

*Star Over-the-Bucket Forks are built stronger to last. Take a look at our specs and don’t accept anything less.*

---

**FULLY FORGED FORKS** JUST LIKE THE ONES ON YOUR FORKLIFT (these are not forks built from two pieces of steel welded together that require a gusset to keep them from coming apart).

**BIG 2” DIAMETER SOLID STEEL SHAFT** 80” long. Same size shaft as used on 6,000 and 8,000 lb forklifts.

**HEAVY DUTY ¾” PLATE STEEL BRACKETS** Brackets are built from thicker plate so only 3 are required (more than 3 restricts side to side adjustment of forks).

---

**Shaft, brackets & forks SOLD SEPARATELY.**

---

**SOLD SEPARATELY.**

---

**Shaft, brackets & forks SOLD SEPARATELY.**

---

**We guarantee you will be pleased with these forks.**
